

Scopus<sup>®</sup>

Quick reference guide

# Performing a document search

The screenshot shows the Scopus search interface with the following elements:

- Navigation tabs:** Documents (A), Authors, Affiliations, Advanced.
- Search bar:** Search coffee (B). Below it, a dropdown menu is set to "Article title, Abstract, Keywords" (C).
- Boolean operator:** AND (D).
- Second search bar:** Search "crop production" (E).
- Limit section:** Date range (inclusive) set to "Published All years" to "Present" (E). Other options include "Added to Scopus in the last 7 days".
- Document type and Access type:** Both set to "ALL".
- Buttons:** "Reset form" and "Search Q".
- Search history table (F):**

Search history	Combine queries...	e.g. #1 AND NOT #1	Results	Actions
5	( TITLE-ABS-KEY ( coffee ) AND TITLE-ABS-KEY ( "crop production" ) )		331 document results	[RSS] [Alert] [Save] [Delete]
4	( TITLE-ABS-KEY ( coffee ) AND TITLE-ABS-KEY ( crop AND production ) )		1,112 document results	[RSS] [Alert] [Save] [Delete]
3	TITLE-ABS-KEY ( coffee )		34,965 document results	[RSS] [Alert] [Save] [Delete]

- The **Document search** tab is the Scopus homepage. Other tabs are **Author**, **Affiliation** and **Advanced** search.
- Enter your search terms in this field. You can combine multiple search terms within one field. [Learn more](#)
- Select which fields you wish to search from using the dropdown menu. Add more search fields with the + option.
- Select Boolean operators (AND, OR, NOT) to combine search terms.
- Use the *Limits* to focus on publication periods, document types or access type.
- Your search history is shown here with the options to create RSS feeds and alerts, and save, edit or delete queries. Combine queries from your history by entering the listed search number with Boolean operators.

# Working with document search results

The screenshot shows the Scopus search results page. At the top left, there are options for **Edit**, **Save**, **Set alert**, and **Set feed**, labeled with an orange box **A**. Below this is a search bar labeled **B**. The main content area is titled **Analyze search results**, labeled with an orange box **C**. On the right side of this area, there are options for **Show all abstracts** and **Sort on: Date (newest)**, labeled with an orange box **D**. Below the title bar, there are action buttons: **All**, **Export**, **Download**, **View citation overview**, **View cited by**, and **Save to list**, labeled with an orange box **E**. The main results table has columns for **Document title**, **Authors**, **Year**, **Source**, and **Cited by**. The first result is labeled with an orange box **F**. On the left side, there is a **Refine results** panel with sections for **Access type**, **Year**, **Author name**, and **Subject area**.

Document title	Authors	Year	Source	Cited by
1 Soil moisture associated with least limiting water range, leaf water potential, initial growth and yield of coffee as affected by soil management system	Silva, B.M., Oliveira, G.C., Serafim, M.E., (-), Norton, L.D., Curfi, N.	2019	Soil and Tillage Research 189, pp. 36-43	0
2 Pinto peanut cover crop nitrogen contributions and potential to mitigate nitrous oxide emissions in subtropical coffee plantations	Rose, T.J., Kearney, L.J., Morris, S., Van Zwieten, L., Erler, D.V.	2019	Science of the Total Environment 656, pp. 108-117	1
3 The effect of commodity price shocks on public lands distribution: Evidence from Colombia	Albertus, M.	2019	World Development 113, pp. 294-308	0
4 Simplification of shade tree diversity reduces nutrient cycling resilience in coffee agroforestry	Nesper, M., Kueffer, C., Krishnan, S., Kusalappa, C.G., Ghazoul, J.	2019	Journal of Applied Ecology 56(1), pp. 119-131	0
5 2nd International Conference of ICT for Adapting Agriculture to Climate Change, AACC 2018	[No author name available]	2019	Advances in Intelligent Systems and Computing 893	0

A. The options *Edit*, *Save*, *Set alert* and *Set feed* are available for the query at the top left of its results screen.

B. Use the *Search within results* field to add additional terms to your search. They will be applied to this result set.

Use the *Refine* options to filter the results by access type, year, author, subject area, funding sponsor, etc.

C. Click *Analyze search results* for a breakdown of results by criteria incl. year, source and author. [Learn more](#)

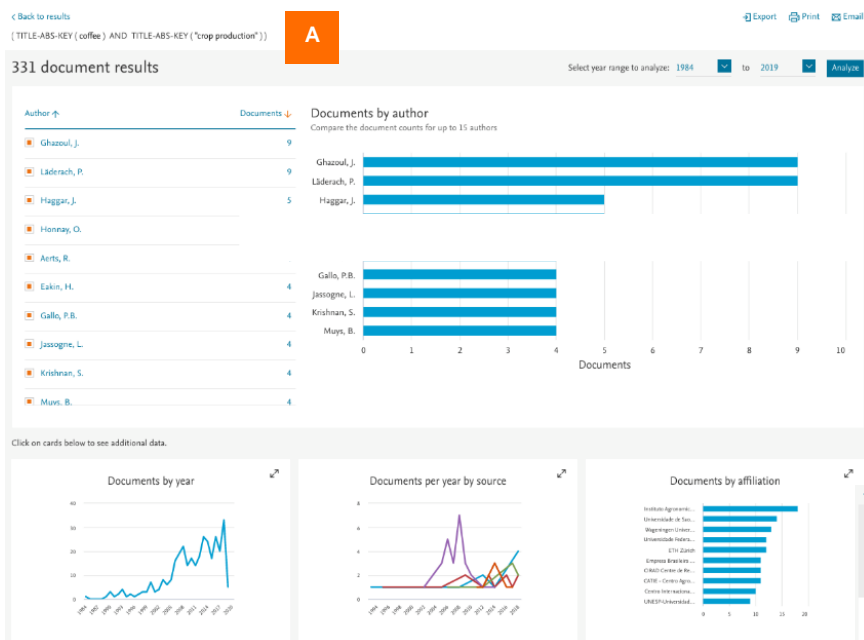

D. Sort results by date (default option), cited by, relevance, first author name or source title.

E. These options allow batch processing of all or selected results: export; download as PDF; view citation overview > [Learn more](#); view citing documents; save to temporary list; view references; bibliography; print; or send results as an email.

F. Click *View abstract* to display the abstract. *View at Publisher* opens the full text on the publisher website, if authorized. *Related documents* displays referenced works. Links to full text and other library services depend on how Scopus has been setup for your institution.

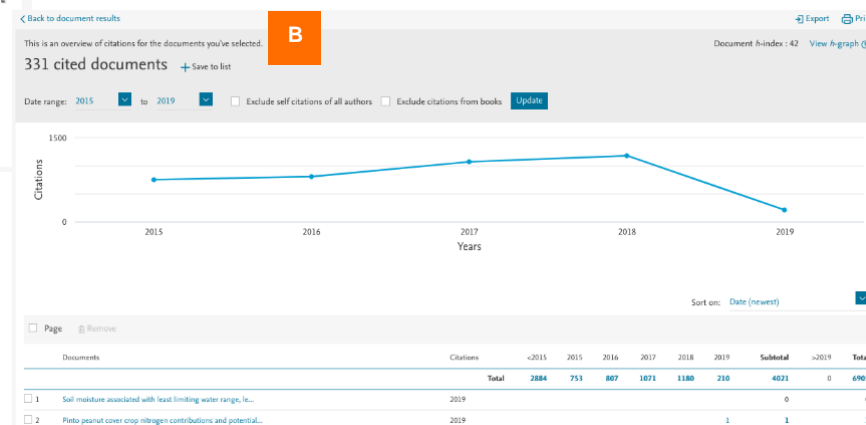

# Analyze Search Results & View Citation Overview

A. Clicking *Analyze search results* on a search results page shows the number of documents in your search results broken down by year, source, author, affiliation, country, document type and subject area. Click on individual cards to expand and view additional data.

B. Clicking *View citation overview* on a search results page shows how often articles have been cited by other documents per year. You can change the date range and exclude self citations and book citations. You can also save, print or export a list of the cited documents.

**B** **Applications of pectinases in the commercial sector: A review** (article)

Khalisy, O.P., Vohra, P.K., Chhara, S., Tewari, R.<sup>1</sup>

<sup>1</sup>Department of Microbiology, Purjya University, Chandigarh 160014, India  
<sup>2</sup>Department of Biotechnology, Punjab University, Chandigarh 160014, India

**Abstract** Pectinase are one of the upcoming enzymes of fruit and vegetable industries. These enzymes break down complex polyelectrolytes of plant tissues into simpler molecules like glycomucic acids. The role of acidic pectinases in bringing down the viscosity and bitterness of fruit juices is well established. Recently, there has been a good number of reports on the application of alkaline pectinases in the textile industry for the setting and degumming of fiber fabric, production of good quality paper, fermentation of **soybean** and tea, of extraction and treatment of waste water. This review discusses various types of pectinases and their applications in the commercial sector. Copyright © 2010, Elsevier Science Ltd.

View all related documents based on references

Find more related documents in Scopus based on:  
Authors | Keywords >

- Click *View at Publisher* to open the full text on the publisher's website, if authorized.
- Click an author name to go to the details page for that author.
- View the keywords assigned from thesauri under *Author keywords* and *Indexed keywords*. Additional matched terms can include *Chemicals* and *CAS Registry Numbers, Tradenames and Manufacturers*.
- View the references cited in this document. The titles link to the abstract pages for those articles.
- View citation article level metrics, including PlumX Metrics, to evaluate both citation impact and levels of community engagement around an article.
- View the three most recent documents to cite this article here. You can also choose to display all citing works; set an alert; or set an RSS feed to keep informed about new citations of this document.
- View related documents (i.e., with shared references, authors or keywords).

# Performing an author search

The screenshot shows the Scopus author search process. At the top, the 'Authors' tab is selected (A). The search fields are filled with 'Psaltopoulou' as the last name and 'Theodora' as the first name. An affiliation 'University of Toronto' is also entered. A search button is visible. Below the search bar, the 'ORCID' field is highlighted (B). The search results page for 'Psaltopoulou, Theodora' is shown. The author's profile is displayed, including their ORCID ID, university affiliation, and a list of other name formats (C). A 'Follow this Author' button is highlighted (D). The profile includes a 'Documents by author' section showing 131 documents and 'Total citations' of 4262 by 3911 documents. A 'View h-Graph' button is highlighted (E). A 'Document and citation trends' chart is shown, plotting 'Documents' (blue bars) and 'Citations' (red line) from 2009 to 2019. At the bottom, a 'Get citation alerts' button is highlighted (F). The '131 Documents' section is expanded, showing a list of publications with columns for Document title, Authors, Year, Source, and Cited by.

- The **Author search** tab is beside the **Document search** tab. Enter the last (family) name and initials or first name of the author in the two author fields. Affiliation can also be added in the *Affiliation* field. Scopus will display a list of possible matches.
- You can also search using an author's ORCID ID.
- Click a name in the list to open the **Author profile**.
- Use *Follow this author* to receive alerts about new publications. Click *View potential author matches* to view and group together authors with similar profiles.
- Click *View h-Graph* to display the *h-index* as a graph. Click *Analyze author output* to visualize their output as graphs. *View citation overview* analyzes citations of their articles by publication year.
- Stay informed about citations of this author with *Get citation alerts*. *Add to ORCID* adds documents to or creates your ORCID profile. *Request author detail corrections* allows you to request edits to the profile.

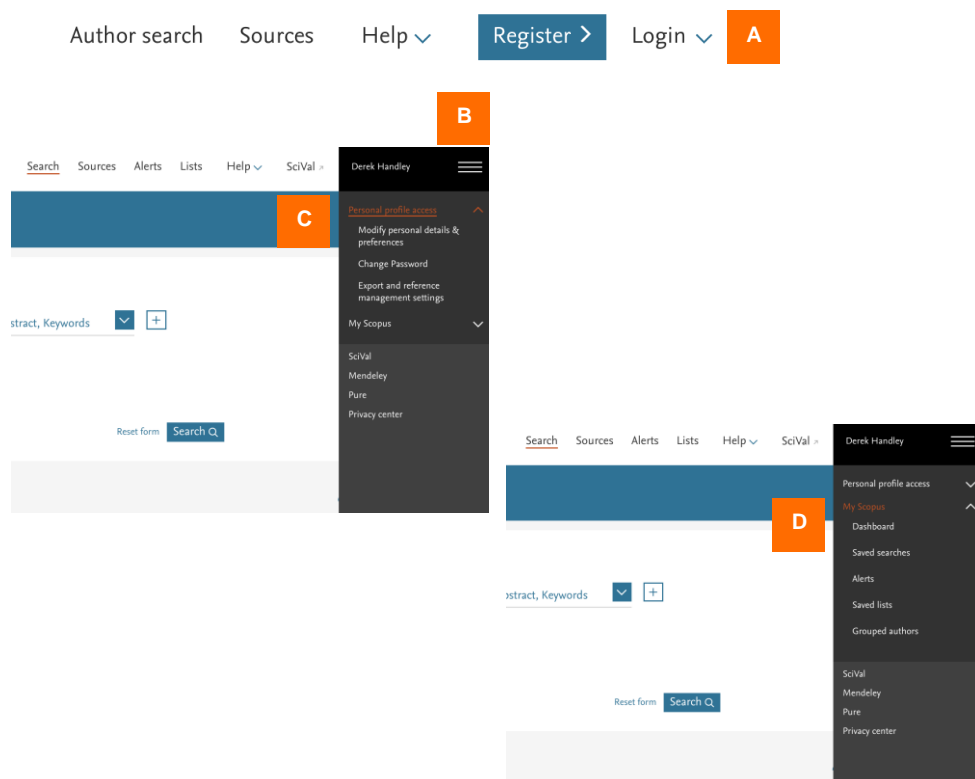

# Browsing for sources

The screenshot shows the Scopus Sources page. The interface includes a navigation bar with 'Sources', 'Alerts', 'Lists', 'Help', 'SciVal', and 'Derek Handley'. A search bar is present with the text 'Enter subject area'. On the left, there is a 'Filter refine list' panel with options for 'Display options' and 'Source type'. The main content area displays a table of 39,647 results, sorted by CiteScore. The table has columns for Source title, CiteScore, Highest percentile, Citations, Documents, % Cited, and SNIP. Several rows are visible, including 'Ca-A Cancer Journal for Clinicians', 'MMWR, Recommendations and reports : Morbidity and mortality weekly report. Recommendations and reports / Centers for Disease Control', 'Chemical Reviews', 'Chemical Society Reviews', and 'National vital statistics reports : from the Centers for Disease Control and Prevention, National Center for Health Statistics, National Vital Statistics System'. Annotations A-F point to the 'Sources' menu, the search bar, the filter panel, the table header, a source title, and the 'Download Scopus Source List' button respectively.

Source title	CiteScore	Highest percentile	Citations 2017	Documents 2014-16	% Cited	SNIP
Ca-A Cancer Journal for Clinicians	130.47	99% 1/120 Hematology	16,961	130	70	88.164
MMWR, Recommendations and reports : Morbidity and mortality weekly report. Recommendations and reports / Centers for Disease Control	63.12	99% 1/87 Epidemiology	1,010	16	100	32.534
Chemical Reviews	51.08	99% 1/359 General Chemistry	44,389	869	97	11.97
Chemical Society Reviews	39.42	99% 2/359 General Chemistry	42,223	1,071	98	7.967
National vital statistics reports : from the Centers for Disease Control and Prevention, National Center for Health Statistics, National Vital Statistics System	36.13	98% 1/46 Life-span and Life-course Studies	1,120	31	100	19.73

- Use the Sources page to browse the list of all journals, book series, trade publications and conference proceedings available on Scopus.
- Search by title, subject area, publisher or ISSN.
- Use the *refine* options to filter the results by display options, CiteScore quartile or source type.
- Sort the listed sources by title, CiteScore, number of citations or other parameters (see column titles).
- Click a source title to open the *Source details* page, which lists basic information and journal metrics.
- Download the entire Scopus source list as a Microsoft® Excel® spreadsheet.

# Accessing personalized features

- Register for and log into Scopus to take advantage of a whole range of personalized features.
- After login, click on the menu icon to access your account.
- Click *Personal profile access* to modify your personal details and preferences, change your password, and manage your export and reference management settings.
- Click *My Scopus* to view your *Dashboard* (where you can see the status of any author feedback correction requests) and to manage your saved searches, alerts, saved lists and grouped authors.
